

To Whom It May Concern,

The No Call List exists for a reason, and that is to protect me, the consumer, from businesses who wish to harrass me and try to sell me services. I choose to not be notified of "services which may benefit me" as these businesses claim. I want to continue to have my freedom from these entities, so please allow the residents of the state of Wisconsin to enhance their freedom, privacy, and quality of life with this option of the state's no-call-list.

Thank you,
Martin
